Refuse to Be Hypnotized By His Jackson Day Treaty Recommendations

WILL HELP FAMILIES OF ALIENS

(By Associated Press) WASHINGTON, Jan. 9.—The government has definitely decided to render aid to the dependents of alien radicals whom it deported. Assistant Attorney General Garvin announced today. Action in this direction will be taken purely as a humanitarian measure and not because of any obligations to the families of aliens, he added.

TELEGRAPHERS GIVEN MORE PAY

In common with 32,000 of their fellow employees in other cities, the local employees of the Western Union Telegraph company who have been six months or more in the service of the company, will participate in salary increases totaling over \$5,000,000 a year commencing January 1. Employees who have been a year or more in the service will receive a 15 per cent increase, and those who have been six months but less than a year in the service will receive 10 per cent. Only employees who receive less than \$250 a month will participate.

Manager C. C. Hawcroft of the local office states that these increases are in pursuance of an agreement reached some time ago between the management and the Association of Western Union employees. The Western Union is one of the large corporations which engages in the process of collective bargaining with its employees, and this is the latest of several general increases which have been negotiated as a means of offsetting to a certain extent, the increased cost of living, which has fallen so heavily upon the salaried class.

TWO AMERICANS SLAIN BY REBELS

(By Associated Press) MEXICO CITY, Jan. 9.—F. Roney and Earl Bole, Americans who met death in the Tampico region early this month, were killed by rebels after having disregarded warnings from the local authorities who advised them not to venture into the lawless regions alone, according to telegrams from state officials at Tampico given out tonight by the interior department.

ASSAULTED A CHINAMAN BY SHUTTING AN EYE

Two boys charged with assaulting Louis Frank, a Chinese cook, will have a hearing this evening before Justice Grier. The lads were out with some Serbian friends celebrating Christmas and were given some choice booting which started them out on the warpath in the lower district. The boys were looking for trouble and, seeing a Chinaman cross the street carrying a tray filled with cake, they thought it was a good idea to smash the bearer in the eye. Both boys are of good families.

THE WEATHER

Local observer United States Weather Bureau:

Temperature:	12	24
Wet bulb:	10	20
Relative humidity:	71	52
1919	1919	
Temperature:	34.6	30.0
Maximum yesterday:	34	44
Minimum yesterday:	8	27

STEAMSHIP BURNED; \$1,000,000 LOSS

(By Associated Press) NEW YORK, Jan. 9.—Damage to the American line steamer St. Louis, which was burned at a Hoboken shipyard last night, was estimated at \$1,000,000 today. The interior of the ship was wrecked and the plates badly warped. The origin of the fire is unknown.

LANDING THE UNDESIRABLES

(By Associated Press) STOCKHOLM, Jan. 9.—The undesirable deportees from the United States on the transport Buford will probably be landed at Hango, Finland, and will proceed to Russia by rail under heavy guard, it was said here. The Finnish legation lacked official information but the belief was expressed that no communication would be allowed with those landing from the Buford who will be furnished sufficient food for the journey by railway. Swedish authorities declare those deported from the United States would not be allowed transit through Sweden.

SECOND STOCK TO BE LISTED

Arrowhead Annex will be the second of the mining companies in the Arrowhead Mining district to be listed on the San Francisco Stock exchange. The shares will be called for the first time next Monday morning, and from the reports received by the Divide Brokerage company from San Francisco they will meet with a heavy sale. Trading in the shares on the curb there are reported to be brisk and at advancing prices.

Numerous strings of \$50 silver ore are making into the Annex shaft at a depth of twenty-five feet, and the mineralized condition there and at surface is such as to warrant the prediction that the Annex will be one of the first properties at Arrowhead to open pay ore in commercial tonnage. A vein has been opened at surface for a length of 700 feet, carrying silver values of from \$2 to \$50 a ton, and a contract has been let to sink the shaft to the sulphide zone—an estimated depth of 100 feet.

The property adjoins the Hammer group, recently purchased by the McCreary brothers, prominent oil and mining operators of California and Arizona, and lies within 1,500 feet of the famous Arrowhead mine where ore running from \$100 to \$200 a ton is being sacked for shipment.

WEINSTEIN HELD WITHOUT BAIL

(By Associated Press) NEW YORK, Jan. 9.—Gregory Weinstein, "chief of staff" of Lipwig Martens, Russian secret "barrister," has been refused bail. He is being held at Ellis Island although \$10,000 in Liberty bonds was offered last night for his release. The reason given for holding Weinstein was that he refused to answer questions. Weinstein has been called Trotsky's closest friend in the United States.

BULGARIAN KING MADE A PRISONER

(Correspondence of Associated Press) GENEVA, Jan. 9.—The revolution in Bulgaria is spreading. A high-grade bulgar has been uncovered at a depth of 50 feet. Careful sampling shows silver values of \$100 for a width of two feet and five inches that give \$245.

Bryan Leads Bolters Sidestepping the Issue

(By Associated Press) WASHINGTON, Jan. 9.—Democratic senators today generally declared that the president's Jackson day dinner letter urging that the question of the peace treaty ratification be carried into the presidential campaign had not changed matters at all and efforts on compromise reservations would continue.

The only way to determine the will of the American people, the president said, was to make the league of nations the main issue of the next election. No intimation was given about the intentions of the president to take part as a candidate by running for a third term or the suggestion of putting the treaty before the people was not received with much favor by those present. The views of Mr. Wilson are expressed in the following paragraph of his letter:

"If the senate wishes to say what the undoubted meaning of the treaty is I shall have no objection. There can be no reasonable objection to the interpretation accompanying the act of ratification itself. But when the treaty is acted upon I must know whether it means that we have ratified or rejected it. We cannot rewrite this treaty."

REDS NOT GOING TO DANISH PORT

(By Associated Press) WASHINGTON, Jan. 9.—Alien radicals deported in the army transport Buford, which is now nearing the Kiel canal, will not be landed at Copenhagen, nor is it planned to send other deportees from this country to a Danish port. Anthony Caminetti, commissioner general of immigration said today. He still refused, however, to say where the Buford would land.

LENINE URGES CAUTION ON REDS

(By Associated Press) ROME, Jan. 9.—Epoca says Nicola Lenine has written another letter to the directors of the socialist party imploring them not to precipitate any revolutionary movement which in present conditions would have no probability of success.

HARVARD MAN MAKES A PLEA

(By Associated Press) WASHINGTON, Jan. 9.—A letter from President Lowell, of Harvard, urging that democratic senators should "not stand too firmly" against reservations to Article X of the league of nations covenant was made public today by Senator Walsh, Democrat.

BRINGS \$65,000 TO DIVIDEND

E. P. Cullinan, of the Tonopah Dividend mine, on arrival this morning displayed two cashier's checks payable to the order of the Dividend to prove that the company was not short of development funds. One of these checks was for \$25,000 and the other for \$40,000, all of which were in the treasury.

"I want to settle the report that I have sold out my interest in the Tonopah Dividend. Myself and Julius Goldsmith own 200,000 shares in the company and there remain 20,000 shares in the treasury. It is true that we gave an option on the property at a pretty stiff figure which the parties failed to exercise and forfeited their deposit."

Highgrade On Revert In the Bosanke Lease

Tom Coulson says he is willing to have the whole population of Tonopah visit the Bosanke lease on the desert estate to be convinced that a high-grade bulgar has been uncovered at a depth of 50 feet. Careful sampling shows silver values of \$100 for a width of two feet and five inches that give \$245.

TO INTERVENE IN PROHIBITION

(By Associated Press) SAN FRANCISCO, Jan. 9.—California wine manufacturers and distributors are to intervene in the action brought by the anti-prohibition forces of Rhode Island before the United States supreme court in the hope that the Rhode Island case would be strengthened thereby, Theodore Bell, attorney for these interests announced today. This action is intended primarily to overturn the federal prohibition amendment.

EAST TONOPAH OPTION GIVEN

Deeds for an option on close-in Tonopah claims have passed between the owner and representatives of one of the leading mining companies in Nevada. The ground takes in the K. C. group which was optioned to the Tonopah Belmont Development company three years. Drills were installed and the claims tested by putting down holes, but the option was allowed to expire without the company signifying its conclusions or giving any information about the nature of the rock disclosed. At the time it was reported that the drilling was not satisfactory and that another core drill would be tried but the principles in the transaction never gave any information as to the reasons for suspending operations.

U. S. TROOPS LEAVE SIBERIA

(By Associated Press) TOKIO, Jan. 9.—A dispatch from Vladivostok received today says the American government has decided to withdraw all troops from Siberia.

STATE POLICE USE UP APPROPRIATION

Reorganization of the state police so as to meet new conditions imposed by the national prohibition amendment and so that the state will be better able to co-operate with the federal authorities in the enforcement of prohibition laws is planned at once, according to an announcement made by Governor Boyle.

The reorganization plans include the maintenance of an active force in the field at all times but lack of funds will make it impossible to increase the number of men in the organization, the governor says. The appropriation made by the last legislature was intended to be sufficient to keep eight men in the field but strike disorders cut a great hole in the fund.

WILL BE TRIED AS ACCESSORY

(By Associated Press) SAN FRANCISCO, Jan. 9.—The trial of Mrs. Alice Woodcock, charged with being accessory in the murder of Edward Kelly will begin February 5. It was indicated today when the case was called in the superior court. The case was continued one week when the date for trial was set, but it was agreed that February 2 should be the date if possible.

ADAM CHAPTER AT RENO INSTALLS OFFICERS

Officers of Adam chapter, Order of Eastern Star, were installed last night with Mrs. Olive Stewart of Tonopah, grand matron of the order in Nevada, and Mrs. Leona Goodrich acting as installing officers. The new officers are: Elda Barber, matron; Dr. J. A. Fuller, patron; Mrs. Gertrude Wagner, associate matron; Mrs. Anna H. Warden, secretary; Miss Emily Lake, treasurer; Mrs. Edna Springer, conductor; Alwice Schaff, associate conductor; Mrs. Mary McCaskey, chaplain; Mrs. Winifred Curtis, warder; Mrs. Clara Chalm, marshal; L. James, sentinel; Miss Ethel Crump, Adah; Miss Vera Ames, Ruth; Mrs. Bessie R. Eichelberger, Esther; Mrs. Grace Nelson, Martha; Miss Isabel Hatcher, Elsie; Mrs. Anna M. Warren, George Robinson and Mrs. Marion Chalm, trustees.

SEVEN CITIES SWALLOWED UP BY GREAT LAKE

(By Associated Press) MEXICO CITY, Jan. 9.—Seven towns near Teocelo, south of Jayapa, have been overwhelmed by earth disturbances and a great lake is covering their former sites, according to a message received today from Teocelo through Vera Cruz. Thirty-four bodies had been recovered when the message was filed at Teocelo.

NO RAILROAD CHANGES FOR SIX MONTHS

(By Associated Press) WASHINGTON, Jan. 9.—Continuation of the standard wages on return of the railroads for a period of six months after termination of federal control was agreed upon today by the senate and house conference on railroad legislation. In fixing this date the conferees accepted the Esch bill provision. The Cummins bill would have limited the time to four months.

GASMAN BEATS THE EXTENSION

A reminder of the Nevada Gas company of unwholesome memory was dragged from seclusion today by Judge Grier who is arranging his docket for tomorrow, discovered that he was scheduled to hear the story of how the gas company enacted the role of a bunco artist by making a borrow without any thought of restitution. It will be recalled that the gas company was seldom stocked with oil and on such occasions it was the practice of the manager to hold up the various mining companies whose managers were open to a touch. The last time the expedition was tried it was on the Tonopah Extension, which loaned the lighting men 1297 worth of fuel oil. The plaintiff company seeks judgment for that amount.

ALAMEDA BUSINESS DISTRICT BURNED

ALAMEDA, Calif., Jan. 9.—Fire sweeping the business district caused a \$500,000 loss yesterday afternoon. The flames jumped Park street, the main business street, owing to the water supply being partly cut off by a breaking main. The fire started in the express company building and spread with a high wind.

BUTLER THEATRE
